GREAT WESTERN HWY
DESIGN COMPLIANCE AND INDEMNITY

GT&C:

In the course of the works undertaken by the Service Provider in the course of the Service Provider's allotment (as defined in the General Terms and Conditions) and/or as a result of any loss or damage to the assets in the Service Provider's possession, the Service Provider will indemnify Endeavour Energy for any loss or damage resulting from non-compliance by the Service Provider with either the Design - Detailed Procedures or any relevant Endeavour Energy's design standards and/or from Artefact's failure to make the services available in a manner acceptable to Endeavour Energy at all times and as listed on the Endeavour Energy Accredited Service Provider's Internet site. These standards include, but are not limited to:

- AS 3006:2000 "Overhead Line Mains Construction Instruction" published by The Australian Standards (ASMI)
- AS 3008:2001 "Overhead Line Protection Design Instruction" published by The Australian Standards (PDI)
- AS 3009:2001 "Overhead Line Mains Design Instruction" published by The Australian Standards (MDI)
- AS 3010:2001 "Overhead Line Substation Design Instruction" published by The Australian Standards (SDI)
- AS 3011:2001 "Overhead Line Substation Maintenance Instruction" published by The Australian Standards (SMI)
- AS 3012:2001 "Overhead Line Mains Construction, Protection and Substation Inspections Procedures" published by The Australian Standards (MMI)
- AS 3013:2001 "Overhead Line Substation Maintenance, Protection and Substation Inspections Procedures" published by The Australian Standards (SMI)
- AS 3014:2001 "Overhead Line Standards for Public Lighting Electrical Design Element" published by The Australian Standards (LDI)

Additionally, where relevant, the design complies with AS/NZS 7000 "Overhead Line Design - Detailed Procedures" published by The Australian Standards.
