Project Update | Fountain Street and McEvoy Street intersection improvements

Transport for NSW | 27 June 2020

Phase 2 McEvoy Street temporary traffic arrangements

We will adjust the layout and operation of McEvoy Street between Stokes Avenue (east) and Bowden Street to adjust to increased traffic volumes experienced with the easing of some covid-19 restrictions and recent completion of our utility and services investigations.

As a result, phase 2 temporary traffic arrangement will be installed during the night to create additional lanes on McEvoy Street. A section of McEvoy Street near the work zone will remain without on-street parking, while other areas will have on-street parking reinstated. The pedestrian detour will remain in place.

Night work: 2, 5 and 6 July 2020

Night work between 7pm and 5am is planned for Thursday 2 July, Sunday 5 July (weather permitting) and contingency shift on Monday 6 July 2020. Work will occur on McEvoy Street (between Hiles Street and Bowden Street) and Fountain Street near the intersection with McEvoy Street, Alexandria.

Night work includes the following activities:

- Removal and replacement of line marking
- Adjusting signage
- Adjusting traffic control signals
- Concrete saw cutting
- Moving concrete barriers.

Equipment which will be used during this work includes: vacuum truck, concrete saw, water blasting equipment (to remove line marking), compaction equipment, excavator, mobile crane, mobile lighting towers, power and hand tools.

Temporary traffic changes (including lane closures, road closures and detours) will be in place to ensure the work zone is safe. Please follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

We will also work to ensure access to footpaths, driveways, bus stops are maintained at all times during the work.

Work will be completed at night for the safety of motorists and our workers.

Day work update

We are continuing to work during the day at the temporary construction work area (near 112 McEvoy Street) between Monday to Friday from 7am to 6pm and Saturday from 8am to 1pm.

How will the work affect you?

Our night work may be noisy at times but we will do everything we can to minimise its impact, including completing the noisier activities by midnight (where possible).

Thank you for your patience while we carry out this important work.
