

Alfords Point Road Southern Approach

Review of environmental factors and concept design

Transport
Roads & Maritime
Services

FEBRUARY 2013

Roads and Maritime Services (RMS) is planning for the upgrade of Alfords Point Road, between Brushwood Drive and Alfords Point Bridge over the Georges River, to improve traffic flow and road safety.

The review of environmental factors (including the concept design) to upgrade Alfords Point Road from a four-lane road to six-lane divided road is on display for community comment until **Friday 5 April 2013**.

Privacy: Roads and Maritime Services ("RMS") is subject to the Privacy and Personal Information Protection Act 1998 ("PIP Act") which requires that we comply with the Information Privacy Principles set out in the PPIP Act.
All information in correspondence is collected for the sole purpose of assisting in the assessment of this proposal. The information received, including names and addresses of respondents, may be published in subsequent documents unless a clear indication is given in the correspondence that all or part of that information is not to be published. Otherwise RMS will only disclose your personal information, without your consent, if authorised by the law. Your personal information will be held by RMS at 27 Argyle Street, Parramatta NSW 2150. You have the right to access and correct the information if you believe that it is incorrect.

Key features of the proposed upgrade

- Widen Alfords Point Road between Georges River and Brushwood Drive from two lanes to three lanes in each direction.
- Improve traffic flow to and from Brushwood Drive on and off ramps by using the new lanes.
- A central barrier to improve safety by dividing the northbound and southbound carriageways.
- Relocate the northbound bus bay on Alfords Point Road on ramp near Eucalyptus Street, to a location approximately 100 metres to the south.
- New road surface and improved drainage system.
- A breakdown bay along the southbound carriageway located approximately midway between the Georges River and Brushwood Drive.
- Truck inspection area on the southbound carriageway relocated to beneath Old Illawarra Road bridge, approximately 900 metres south of Brushwood Drive.
- Realign the pedestrian path on the eastern side of Alfords Point Road.
- Adjust existing noise walls, possible provision of noise barriers and/or architectural treatments to address noise issues.
- Cycleway access from Alfords Point Road.

Have your say

RMS values your views. Please send written comments by **Friday 5 April 2013** to:
