

Temporary traffic access arrangements for Wharf Road over the Spring and Summer holiday period

Construction of the Batemans Bay Bridge replacement is progressing with Transport for NSW temporarily opening the Princes Highway southbound slip lane onto Wharf Road from 9 October 2020 until early to mid 2021 following the peak holiday seasons.

Southbound access from the Princes Highway onto Wharf Road will be temporarily reinstated to improve peak traffic access to the residential and holiday park areas on the north side of the Clyde River.

What are we doing?

To improve traffic flow during the peak holiday period, we will temporarily opening a new slip lane off the Princes Highway in North Batemans Bay. Southbound motorists on the Princes Highway will be able to turn left onto Wharf Road from 9 October 2020, weather permitting. This new slip lane also incorporates a new roundabout along Wharf Road.

What you need to know?

When the temporary slip lane opens, the following access arrangements will be permitted:

- Southbound motorists on the Princes Highway can turn left into the new Wharf Road slip lane.
- Northbound motorists on the Princes Highway can continue to access Wharf Road by turning right at the Princes Highway, Kings Highway and Peninsula Drive roundabout intersection and travelling east via Peninsula Drive. Alternatively northbound motorists on the Princes Highway can access Wharf Road by completing a U-turn at the Princes Highway, Kings Highway and Peninsula Drive roundabout and travelling south along the Princes Highway to access the new slip lane.
- Wharf Road motorists can access the Princes Highway via the existing detour along Peninsula Drive back to the Princes Highway intersection with the Kings Highway.

This southbound slip lane will remain open until early to mid 2021 following the peak holiday seasons in 2021. The community will be notified separately when the slip lane closes for the completion of construction work along Wharf Road.

Pedestrian, beach and private property accesses along Wharf Road will be maintained at all times.

A diagram showing where the slip lane is located including all traffic changes is available below.
