Southbound access from the Princes Highway onto Wharf Road will be temporarily reinstated from November 2020 until early 2021.

**Wharf Road off-ramp open**
Southbound access from the Princes Highway onto Wharf Road will be temporarily reinstated from October 2020 until early 2021, weather permitting. This will allow visitors and residents to access Wharf Road and the holiday parks over the peak summer periods. Pedestrian access at Wharf Road will be maintained at all times with the pedestrian detour remaining in place.

**Community Display Centre**
The Community Display Centre at the main site compound remains closed in accordance with NSW Health guidelines. You are always welcome to contact the project team via email or by phone.

**Out of hours work**
Standard construction hours are Monday to Friday from 7am to 6pm and Saturdays from 8am to 1pm. We are required to work outside of standard hours to allow for a number of construction activities to minimise disruptions during peak periods.

- Standard construction work hours have been extended to Mondays to Sundays (including public holidays) from 7am to 6pm to support the industry during the COVID-19 pandemic.
- To complete segment production quicker and minimise community impact, the pre-cast facility south of Mogo is currently operating up to 24 hours per day from Mondays to Saturdays until late 2020.

**Changes to boat ramp access**
To minimise impacts to our community and river users, one boat ramp will be opened at all times, either the Clyde Street west or Old Punt Road boat ramp. The boating community can also use the Hanging Rock and Nelligen boat ramps to launch their boats.

**Project shutdown for holidays**
Work on the project will shutdown for ten days over the peak holiday season, with all works on the project stopping on Thursday 24 December 2020. Works will recommence in the New Year from Monday 4 January 2021, weather permitting.

Workers will be on standby for any urgent matters throughout the holiday period.

**Traffic changes and your journey**
For the safety of workers and motorists, temporary lane closures and short-term traffic stoppages will be in place at times on the Princes and Kings Highways which may affect travel times.

Please keep to the speed limits and follow the direction of traffic control/s and signs. For the latest traffic updates:
- call 132 701
- visit livetrack.com
- download the Live Traffic NSW App.

**What work is coming up?**
Major work planned between 1 October and 31 December 2020 will include:
- completing segment production at the pre-cast facility south of Mogo
- continuing delivery and erection of bridge segments
- carrying out finishing works on northern and southern bridge approach retaining walls and embankments
- commencing bridge finishing works such as installation of barriers and the road surface
- temporarily opening new Wharf Road off ramp from Princes Highway and opening new Wharf Road roundabout
- continuing preparation work for new L-shaped floating pontoon on the southern foreshore
- working with the Public Art Advisory Committee to engage an artist for a public artwork on the southern foreshore.

During a broad community engagement process involving the Foreshore Advisory Committee and the broader community in 2019, the community requested more space to berth and launch various types of water vessels on the southern foreshore. A new floating L-shaped pontoon design will soon be finalised and constructed to the east of the existing T-wharf. The existing T-wharf will be kept in place. Preparations for the floating pontoon are underway with construction scheduled for 2021.
In the next few months, the majority of the five piers will connect to form the spans of the bridge. The northern and middle sections of the new bridge will be completed first.

Temporary accessible toilet facilities will remain in place near Korners Park. Pedestrian access from Korners Park underneath the current bridge remains closed. The alternative pedestrian detour via the service centre and Old Punt Road remains in place.

The large construction barge AMS 1807 will continue to assist with the erection of the bridge segments over the coming three months.

Reopening of Old Punt Road boat ramp

With segment erection starting to focus on the southern side of the river, the Old Punt Road boat ramp has been temporarily closed. While the Clyde Street west boat ramp will remain open, the Old Punt Road boat ramp provides eight boat trailer parking spaces and a boat wash area.

For the safety of cyclists, pedestrians and workers, the temporary pedestrian detour from Old Punt Road to Korners Park will remain in place.

Traffic signals

Traffic signals will soon be operational on the Princes and Kings Highway roundabout which only activate during peak travel periods, improving traffic flow.

Assistance from Yumaro

The project has been working with regional disability support organisation Yumaro, to fill hundreds of sandbags to be used for safety and environmental controls.

Southern Foreshore

The project has been working with regional disability support organisation Yumaro, to fill hundreds of sandbags to be used for safety and environmental controls.

Main site compound

The project’s main site compound continues to store construction materials and equipment and includes the Infrastructure Hub. This training hub provides development and employment opportunities for under-represented groups to work in the construction sector.

Temporary closure of Clyde Street west boat ramp

Temporary closure of Clyde Street west boat ramp will remain open while the Clyde Street west boat ramp is temporary closed. This provides eight boat trailer parking spaces and a boat wash area.

Temporary closure of Clyde Street east

Temporary closure of Clyde Street east will be in place while the Clyde Street east boat ramp is temporary closed. This provides eight boat trailer parking spaces and a boat wash area.

Public artwork on southern foreshore

The project will include an artwork on the southern foreshore, which will pay tribute to the existing artwork and fit within the overall theme of the project.

Temporary boat trailer parking and fish cleaning facilities are also available to the public at this boat ramp.

For the safety of cyclists, pedestrians and workers, the temporary pedestrian detour from Old Punt Road to Korners Park will remain in place.

A side track has been established aligning Clyde Street east with new traffic movements for vehicles and the pedestrian detour remains in place.
