Work to upgrade the roundabout at Cambewarra and Moss Vale roads, Bomaderry

The NSW Government has provided $18 million in 2016/17 to continue planning work for the Princes Highway upgrade between Berry and Bomaderry.

As part of the planning work for the highway upgrade, Roads and Maritime Services will upgrade the roundabout at Cambewarra and Moss Vale roads to improve traffic flow.

How will this affect you?

Work to upgrade the roundabout will involve building a left turn "slip" lane for motorists turning out of Moss Vale Road that are travelling north on the Princes Highway. The upgrade will also include an additional lane to be built on the northern side of the roundabout for motorists exiting Moss Vale Road and either travelling south on the Princes Highway or east on Cambewarra Road.

We expect to start clearing vegetation (including removal of some trees and shrubs), surveying and fencing installation work as well as relocating utility services in early April 2017, weather permitting. Construction work will then start to upgrade the roundabout and is expected to be complete late August 2017, weather permitting.

Work will be carried out between 7am and 6pm Monday to Saturday and between 8pm and 5am Sunday to Friday as required and weather permitting.

The work will involve the use of machinery which may generate some noise. Every effort will be made to minimise the impact of noise on nearby properties.

Traffic change

For the safety of workers and motorists, the road shoulder in the northbound direction near the worksite will be closed. One travel lane will be closed occasionally at the worksite at night. Traffic control and a reduced 40km/h speed limit will be in place during work hours. Motorists are asked to keep to speed limits and follow the direction of traffic controllers and signs.

Contact

If you have any further questions, please contact our Project Manager Shaun Walsh, on 1800 506 976, or BerrytoBomaderryUpgrade@rms.nsw.gov.au. Thank you for your patience during this work.
