Berry to Bomaderry Princes Highway upgrade

Project Update

Looking north along the newly-constructed carriageway between Jaspers Brush Road and Wileys Creek which will soon be opened to traffic.

- **Speed limits in place during construction**: 60
- **Lateral traffic shifts during construction**
- **Use U-turn facilities to access properties**
Traffic movements - during construction

**Upcoming traffic changes**

The Berry to Bomaderry project team is preparing for a series of traffic switches which will happen between now and the end of 2019. We will have three separate "lateral shifts" where traffic is moved from the existing road onto sections of the newly-constructed southbound carriageway. Motorists should follow the directional signage and directions of traffic controllers during these lateral shifts.

This allows the project team to begin work on demolishing and rebuilding the existing highway. These shifts will occur through September and October 2019 and include shifting traffic to the east between:

- Jaspers Brush Road and Silos Estate
- Tandingulla Creek and Meroo Road
- Meroo Road and Abernethys Lane.

**Key**

- **Princes Highway**
- Lateral shift of traffic for both north and southbound traffic
- **U-turn (to be constructed)**
- **Railway**

**Traffic changes**

- **350,000 m³** of earth moved
- **2.1 km of 15 km** of drains now in place
- **10 of 11 bridges** underway
- **23,000 m²** of paving laid
Berry to Bomaderry project teams up with local workers with disabilities

The Berry to Bomaderry project team has partnered with Flagstaff Group to offer work opportunities to local people with a disability. The team at Flagstaff will be filling sand bags for use across the project for a variety of purposes including weights for traffic signage, erosion and sediment control on site and temporary retaining walls.

The Flagstaff Group provides employment, life skills and training for people with a disability across the Illawarra and Shoalhaven. The Shoalhaven site has 86 employees working in diverse roles including lawn maintenance, woodwork, light engineering, laundry, packaging and assembly and recycling.
