

Changed traffic conditions on the Princes Highway, Berry to Bomaderry

The NSW Government is upgrading the Princes Highway between Berry and Bomaderry to improve safety, increase road capacity and improve traffic flow.

What are we doing?

Traffic will be switched onto the newly constructed northbound carriageway between the Cambewarra Road roundabout at Bomaderry and Abernethys Lane, Meroo Meadow.

This temporary traffic change will allow work to begin on the existing section of road.

During this work, concrete barriers will separate Princes Highway traffic from the construction area. There will be no right-hand turns permitted across the Princes Highway.

How will it affect you?

A separate access will be built for residents and businesses on the southbound side of the highway (see diagram over the page). This access will only be accessible to southbound traffic.

All northbound motorists wishing to access businesses or property on the southbound side will need to travel to the turn around facility opposite Abernethys Lane, Meroo Meadow. Here, you can turn around to head south on the Princes Highway and use the dedicated access for residents and businesses.

Southbound motorists wishing to access businesses or property on the western side of the highway will need to use the Cambewarra Road roundabout to turn around and head north again.

We will make every effort to minimise disruption during this work.

Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates call 132 701, visit livetraffic.com, or download the Live Traffic App.

We thank you for your patience during this important work.
