

Changed traffic conditions Princes Highway at Bomaderry

The NSW Government is upgrading the Princes Highway between Berry and Bomaderry to improve safety, increase road capacity and improve traffic flow.

What are we doing?

We will be moving traffic onto a new section of road on the western side of the highway between Cambewarra Road and Abernethys Lane at Bomaderry in January 2020. This temporary traffic change will allow work to begin along the eastern side of the existing highway.

This will require about five nights of preparation work from Sunday 19 to Thursday 23 January 2020 (weather permitting) and includes relocating barriers, asphaltting and line marking ahead of moving traffic onto the new section of highway.

The night work will be carried out between 7pm and 5am to minimise impacts to motorists on the Princes Highway. A night work comment form is provided with this notification for your attention.

Traffic changes

Once the traffic switch is completed, there will be no right hand turns through this section of the Princes Highway. Instead, a separate access will be created for residents and businesses on the southbound side of the highway. This access will only be accessible to southbound traffic.

All northbound motorists wishing to access businesses or property on the southbound side will need to travel to the turn around facility opposite Abernethys Lane, Meroo Meadow. Here, you can turn around to head south on the Princes Highway and use the dedicated access for residents and businesses.

Southbound motorists wishing to access businesses and property on the western side of the highway will need to use the Cambewarra Road roundabout to turn around and head north again.

Motorists are advised to drive to the conditions and follow the directions of signs and traffic control.

Transport for NSW thanks motorists for their patience during this time.
