

Bus stops on Warringah Road near Melwood Avenue, Forestville to be retained

August 2018

The NSW Government has funded the Bus Priority Infrastructure Program. The program aims to improve the reliability of bus services on Sydney's main bus corridors.

Transport for NSW has identified some ways to improve the reliability of buses along the Terrey Hills, Belrose and Davidson to City and the Manly to Chatswood via Dee Why and Frenchs Forest bus corridor.

In June 2018 Transport for NSW and Roads and Maritime Services proposed to remove two bus stops on Warringah Road near Melwood Avenue, Forestville.

Following feedback from local bus customers and further consideration of access issues the decision has been made to **retain the bus stops in their current location**, at this time.

We have included a map on the following page to help explain our revised plan.

Background

Changes to bus stops support *Future Transport Strategy 2056*, which is the NSW Government's plan to deliver the future transport network. In this plan, a key customer outcome is safety and performance, which seeks to ensure that every customer enjoys safe travel across a high performing and efficient network. It also reflects what our customers tell us about bus services, with travel time and on-time running being some of the most important service features.

Bus stop retained

The bus stops on Warringah Road near Melwood Avenue and opposite Melwood Avenue, Forestville will no longer be removed from service.

What happens next?

We have listened to the community and **no changes** will be made to the two bus stops on Warringah Road near and opposite Melwood Avenue, Forestville at this time.

We will engage with the community should any further proposals be made to change bus services or bus stop locations in the area. Roads and Maritime thanks the community for providing feedback.

Warringah Road near Melwood Avenue, Forestville Retain bus stops, no change to parking
