

Intersection improvements at Canterbury Road and Bexley Road, Campsie

Project update

Roads and Maritime Services | June 2019

Location of work on Canterbury Road and Bexley Road, Campsie

The NSW Government is delivering improvements at this intersection to ease congestion and improve travel times on Sydney's key corridors.

High volumes of traffic currently travel through the Canterbury Road and Bexley Road intersection at Campsie, particularly during the morning and afternoon peak periods.

Work is being carried out to widen Bexley Road and extend the right turn lane.

Key benefits

- Reduced congestion and improved safety at the intersection by extending the northbound right turn bay from Bexley Road to Canterbury Road.
- Minimising delays by improving traffic flow through the intersection.
- Improving safety of the intersection by reducing the number of rear-end crashes and crashes involving motorists changing lanes.

Work to date

Since work started in June 2018 we have:

- completed installing traffic signs and traffic barriers
- relocated overhead cables and power poles
- constructed new stormwater drains
- constructed new road pavement and new line markings
- extended the storage capacity of right turn bay from Bexley Road onto Canterbury Road
- Constructed new kerbs and footpath
- landscaping works.

What's happening next?

- Night work will continue along Canterbury Road and Bexley Road.
- Continued relocation of utilities and services.

Traffic changes

There will be temporary traffic changes during our work to ensure the work zone is safe.

Traffic management and signs will be in place to assist motorists with the changed conditions.

Pedestrian access will be maintained at all times, although temporary detours may be in place.

Please keep to speed limits and follow signs and traffic controllers' directions.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

How will the work affect you?

Our work may be noisy at times but we will do everything we can to minimise its impact, including staging activities in different locations and completing the noisier activities by midnight.
