Showsground Road Upgrade

Community update

September 2018

Roads and Maritime Services has completed the first section of the Showground Road upgrade between Carrington Road and Kentwell Avenue, Castle Hill.

The project will help:
• reduce congestion
• increase traffic capacity to meet the predicted growth from development in the area
• improve safety for all road users.

Locations of new clearways on Showground Road, Castle Hill

What is a clearway?
A clearway is a section of road where stopping and parking is not allowed during the times shown on the clearway sign.

Clearways reduce congestion, improve journey times, and improve safety by ensuring all lanes are available to traffic.

Clearways ensure that the road remains clear of parked vehicles so that traffic will continue to flow freely without interference from parked or manoeuvring vehicles.

For more information about clearways please contact the project team on 1300 706 232 or clearways@rms.nsw.gov.au.
