

# Construction complete

## Chandos Street Noise Wall

Transport for NSW has finished building the Chandos Street Noise Wall to reduce traffic noise for nearby residents between St Thomas' Rest Park and Brook Street, Crows Nest.

We would like to thank local residents for their patience while we carried out this important work.

The noise wall was delivered as part of Transport for NSW's Noise Abatement Program, which aims to reduce the impact of high level traffic noise at residences near existing State roads.

**Designed to  
integrate**  
with the built environment

### What we did

Work to build the noise wall started in October 2019 and took around nine months to complete. Our work included:

- Preparing the site for the noise wall construction, including removing vegetation, excavating, building footings, and installing wall posts
- Installing noise wall panels
- Installing transparent panels to reduce shadowing into neighbouring properties
- Planting semi-mature trees and shrubs.

### Feedback

If you have any questions about the project or would like to provide feedback on how we did, please email us at [nsw\\_projects@dmroads.com.au](mailto:nsw_projects@dmroads.com.au) or call us on 1800 332 660. We would be pleased to hear from you.

**For further information on the new noise wall, please visit [nswroads.work/chandos](https://nswroads.work/chandos).**
