

Construction update

Chandos Street Noise Wall

The Chandos Street Noise Wall will help reduce traffic noise for nearby residents between St Thomas' Rest Park and Brook Street, Crows Nest.

We are now over half way through building the noise wall and we would like to thank you for your patience with our work and the disruption this may have caused. Over the past few months we decreased the amount of night work by nine nights to help minimise the impact on you. We also relocated services including Telstra cables and completed building the noise wall footings and posts.

Currently infrastructure construction projects are considered essential to the economy and will continue as planned across the city and the state.

The safety and wellbeing of our workforce and the wider community is our highest priority. Our people are following hygiene and appropriate social distancing measures and will continue to do so.

We will continue to write to you every three months to provide an update on our work.

What work will be carried out?

Between **Monday 4 May and Sunday 26 July 2020**, we will be carrying out work from St Thomas' Rest Park to Brook Street, including installing noise wall panels, building retaining walls and start landscaping areas where our work has impacted vegetation.

We will need to occasionally access Atchison Street between Alexander Street and St Thomas' Rest Park (including Matthew Lane) from **Monday 20 April to Friday 29 May 2020** to deliver materials and machinery to our site. Pedestrian access will be maintained at all times and traffic control will direct vehicles when machinery movements occur.

We have provided a map over the page to help identify the location of this work.

Our work schedule

We will be working through the day and up to 10 nights over the next three months, to build the noise wall as quickly as possible.

We will carry out our work between:

- **7am and 6pm Monday to Friday**
- **8am and 1pm Saturdays**
- **8pm and 5am Sunday to Friday.**

No work will be carried out on public holidays.

It is difficult for us to confirm the exact nights we will be working during this period because of the weather and the approvals we need to be able to work on the road.

If you would like to receive more regular updates, please sign up to our email alerts at nsw_projects@dmroads.com.au.

How will our work affect you?

We will always ensure you have access to your property while we carry out our work, although there may be a minor delay while we move vehicles and machinery out of the way to make the area safe.

We understand these changes may still impact how you move around your area and thank you for your understanding.

We want to assure you that the health and safety of you and your family, as well as our team, is our priority and we will be following current health advice at all times.

If you have any questions or concerns, please contact our team by phoning **1800 332 660**.
