

Noise wall site investigations along Warringah Freeway, Crows Nest from Thursday 5 July

The NSW Government is proposing to install a noise attenuation wall along the Warringah Freeway between St Thomas' Rest Park and Brook Street, Crows Nest. This proposal is part of the NSW Government's Noise Abatement Program and would reduce traffic noise levels for nearby residents.

Roads and Maritime Services is carrying out investigations in preparation for installing a noise attenuation wall. Properties which will benefit from this project are located in the vicinity of Brook Street, Jenkins Lane, Chandos Street and Matthew Lane, Crows Nest. We have included a map showing the approximate location and extent of the noise wall.

We have developed a preliminary design for this noise wall from Brook Street to St Thomas' Rest Park, Crows Nest. Designers and environmental specialists have been appointed to complete a more detailed design, which is expected to be released for community feedback later in 2018.

Timing for construction is dependent on approval of the environmental assessment, which will be displayed for community feedback.

Site investigations

We need to carry out initial site investigations in your area, including topographical surveys, environmental investigations, and identifying the location of utilities such as power and telecommunications cables. The investigations will inform the detailed design of the noise wall and a proposed construction timeline.

We will be working between **7am and 6pm** from **Monday to Friday** and expect to complete the work in around **21 days**, depending on ground conditions and weather permitting. Some work may be required between **8am and 1pm on Saturdays**.

We also plan to conduct geotechnical investigations for the noise wall during July. We will write to you again before the geotechnical work commences.

How will the work affect you?

There may be some noise associated with this work. We will make every effort to minimise noise by turning off machinery and vehicles when not in use.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

Lane closures and stop/slow traffic arrangements will be in place during work hours and may affect travel times.

Please keep to speed limits and follow the directions of traffic controllers and signs.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions please contact the project team on 1800 312 772 during office hours (8.30am to 5.00pm Monday to Friday) or chandos@rms.nsw.gov.au

Thank you for your patience during this important work.
