

Improving safety on Coronation Parade and Hill Street, Enfield

In September 2019 Transport for NSW (TfNSW) invited the community to provide feedback on a proposal to install new traffic lights and signalised pedestrian crossings at the intersection of Coronation Parade and Hill Street, Enfield.

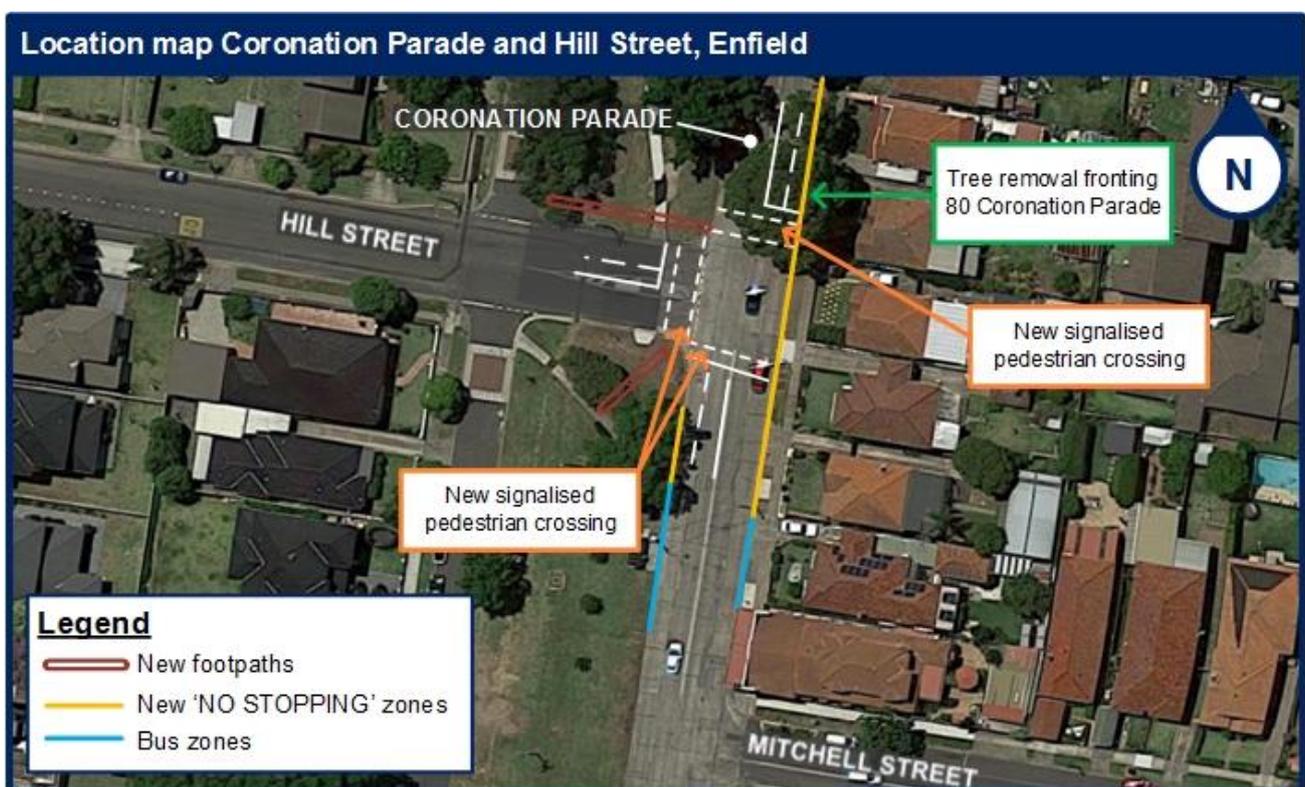

After considering all responses, we have decided to proceed with the proposal with minor changes. Work will begin on **Monday 16 March 2020**. We will be working up to five nights per week so we can complete our work in less time, limiting the impact on the local community.

Before the work starts, we will be on site for **one night shift** to carry out investigations to prepare for the main work. We will provide residents with 24 hours' notice prior to attending.

Community feedback

TfNSW received feedback from 21 people and met with directly impacted residents on site. This feedback has been summarised in an Engagement Summary and sent to those people who contacted us during the engagement period. In total 15 people supported the proposal, two did not state a preference, and four opposed the proposal.

Please contact our service provider LT Joint Venture if you have not received a copy of the engagement summary. Their contact information is overleaf. We thank everyone for considering the proposal and for their comments and feedback.

Our work schedule

We will be on site for **up to 35 night shifts** and **six day shifts** between **Monday 16 March 2020** and **Friday 12 June 2020**, weather permitting, excluding public holidays.

Our day work hours will be between **7am** and **6pm** from Monday to Friday and **8am** to **1pm** Saturdays. Our night work hours will be between **8pm** and **5am Sunday to Friday**.

Contact

If you have any questions, or concerns, please contact our delivery partner, LT Joint Venture, on 1800 735 563 or info@ltjv.com.au or by post at PO Box 380 Rockdale NSW 2216.

For more information on our projects, visit rms.nsw.gov.au.

Why are we installing new traffic signals and pedestrian crossings?

Analysis carried out by TfNSW found that new traffic lights at this intersection would be the most effective way to improve safety for all road users. The new traffic lights will make it easier and safer for pedestrians to cross Coronation Parade and for road users to turn right from Hill Street.

Crash data gathered from 2014 to 2018 shows 16 crashes at the intersection at Hill Street and Coronation Parade, including two serious injury crashes and one pedestrian fatality. This data and resident feedback prompted TfNSW to carry out further investigation work to determine what safety improvements could be made at this location.

Other options including installing a roundabout and banning the right turn from Mitchell Street were considered, however failed to increase safety for both pedestrians and motorists.

What work is happening?

From **Monday 16 March 2020** we will be:

- installing new traffic signals to allow for safer turns from Hill Street onto Coronation Parade
- establishing new signalised pedestrian crossings with new concrete footpaths on all approaches to the intersection
- installing 'No Stopping' zones and removing approximately five car parking spaces on Coronation Parade
- removing the existing concrete median on Hill Street
- removing a tree fronting 80 Coronation Parade to ensure the new traffic lights are easy to see and trimming other nearby trees
- installing a 'No Parking' space on the westbound approach to the new traffic lights
- carry out driveway adjustments

How will the work affect you?

Our work may be noisy at times but we will do everything we can to minimise its impact, including completing the noisier tasks by **midnight**.

There will be temporary traffic changes during our work hours to ensure the work zone is safe. Lane closures will be in place and may affect travel times. Please keep to speed limits and follow signs and traffic controllers' directions. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

If you need help understanding this information, please contact the Translating and Interpreting Service on 131 450 and ask them to call us on 1800 735 563.
