

## Project update - Intersection improvements on the Cumberland Highway, Cabramatta

**The NSW Government is funding this project at the intersection with Cabramatta Road and Links Avenue as part of its \$246 million Pinch Point Program, which aims to reduce traffic delays, manage congestion and improve travel times on Sydney's major roads, particularly during weekday peak periods.**

Roads and Maritime Services sought community feedback on this proposal in January and February, and then on changes to the design and proposed night work construction schedule in June and July. We would like to thank everyone who took the time to consider our proposal and provide feedback.

In January and February we received comments from nine people. In June and July we received comments from five people. There were no objections to the proposal and we received no feedback on the proposed night construction work schedule. Key matters raised included road safety, suggestions for additional improvements to the intersections, parking and construction.

Following a review of the comments, we have prepared a Community Consultation Report, summarising the feedback and our responses. A copy of this report is available at [www.rms.nsw.gov.au/projects](http://www.rms.nsw.gov.au/projects) or by contacting the project team.

Following a review of the comments from both consultation periods, we have made the following changes to the proposal:

- We have moved the location of the merge point on Cumberland Highway southbound to improve safety of motorists leaving their driveway
- We will install a signalised pedestrian crossing across Links Avenue, at the intersection of the Cumberland Highway
- We will install additional merge signage
- We will install 'Keep Clear' road markings on Cabramatta Road West at the intersection with Bauer Road.

### Are you studying for the Higher School Certificate?

We are planning our future work program and would like to know if there are any students residing near the project area, who are sitting for Higher School Certificate examinations from **Thursday 13 October to Friday 4 November 2016**.

If a member of your household is studying for the Higher School Certificate, please contact our delivery partner DownerMouchel by **Friday 2 September**.

## What happens next?

We have decided to proceed with the proposed intersection improvements and the construction work schedule. We expect to start construction in late 2016 and will notify the community and stakeholders before work starts. We have included a map to help explain the work and its location.
