Work continuing on Great Western Highway and Reservoir Road, Blacktown from Monday 6 January 2020

The NSW Government is upgrading the intersection Great Western Highway and Reservoir Road, Blacktown to ease congestion, reduce travel times and improve safety.

Transport for NSW is currently upgrading the Great Western Highway and Reservoir Road intersection in Blacktown.

The upgrade is expected to be completed in early 2020 and will include widening Reservoir Road to:

- extend the left turn from Great Western Highway onto Reservoir Road, easing congestion towards Blacktown
- create a second dedicated right turn lane improving traffic flow onto the Great Western Highway
- add a second dedicated right turn lane on the Great Western Highway reducing travel times towards Blacktown.

So far, we have:

- relocated telecommunication and power services and constructed kerb and gutter on Reservoir Road
- constructed concrete, drainage and headwall structures
- completed earthworks
- relocated electrical poles.
- commenced asphalt and concrete paving works

Our next stage of work will include:

- upgrading traffic lights to cater for the changed lane configurations
- continued road surface work on all corners of the intersection
- continuing asphalt and concrete work
- line marking and landscaping.

To minimise disruption to the road network, we will need to carry out some of this work at night.
How will the work affect you?

Our work may be noisy at times, but we will do everything we can to minimise its impact, including completing the noisier activities such as concrete cutting and jack hammering by midnight.

Traffic changes

There may be temporary traffic changes during our work hours to ensure the work zone is safe. Lane closures will be in place and may affect travel times.

Please keep to speed limits and follow signs and traffic controllers’ directions. For the latest traffic updates, you can call 132 701, visit livetracktraffic.com or download the Live Traffic NSW App.

Christmas shutdown

To provide a break from construction to the local community, we will not be working between Wednesday 25 December 2019 and Sunday 5 January 2020.

We will continue to update you on this project as work progresses, including informing you in advance about future work schedules and night work.
