Work continuing at Joadja Road and Hoxton Park Road, Liverpool

The NSW Government is upgrading the intersection of Hoxton Park Road and Joadja Road, Liverpool to ease congestion, reduce travel times and improve safety.

Transport for NSW is upgrading the intersection of Hoxton Park Road and Joadja Road in Liverpool. The upgrade includes an additional right turning lane at Hoxton Park Road into Joadja Road to improve travel times and reliability. We are also installing traffic lights to the left turn slip lane at the pedestrian crossing on Hoxton Park Road into Joadja Road to improve safety.

So far we have:

- Installed traffic barriers
- demolished part of the median strip
- started investigating and relocating existing utilities.

Our next stage of work will include:

- excavation and drainage works
- pavement construction and concrete works
- relocating street lights and traffic signals
How will the work affect you?

There may be some noise and disruption associated with this work including jackhammering, concrete cutting and excavating. We will make every effort to minimise noise and disruption by completing noisier tasks before midnight and using noise blankets where possible.

Traffic changes

There will be temporary traffic changes during our work hours to ensure the work zone is safe. Please keep to speed limits and follow signs and traffic controller directions. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW app.

Asbestos monitoring

Asbestos may be discovered in the ground in the project area as the project progresses. If we identify asbestos, we will implement an asbestos management plan which details safe work practices and will ensure all work is managed to strict Environment Protection Authority requirements.

Christmas shutdown

To provide a break from construction to the local community, we will not be working between Wednesday 25 December 2019 and Sunday 5 January 2020.

We will continue to update you on this project as work progresses, including informing you in advance about future work schedules and night work.
