

Hoxton Park Road and Hill Road, Lurnea Project update – intersection improvement

Roads and Maritime Services | December 2017

The NSW Government is funding this work as part of its \$300 million Urban Roads Pinch Point Program, which aims to reduce congestion and improve travel times on Sydney's busiest corridors.

Roads and Maritime Services has improved the intersection of Hoxton Park Road and Hill Road in Lurnea.

Open to traffic

The improvements were opened to traffic on Friday 1 December.

The completed work includes:

- widening 80 metres of Hoxton Park Road, to build a dedicated left turn lane on to Hill Road
- relocating the traffic control signals at the intersection of Hoxton Park Road and Hill Road, and providing a left turn signal for motorists turning left on to Hill Road
- installing No Stopping signs on both sides of Hill Road, between Hoxton Park Road and Taloma Avenue
- removing and replacing the road surface and line marking
- reconstructing the bus stop
- installing a new footpath.

We have included a photo of the completed project.

Key benefits

The new dedicated left turn lane will improve westbound traffic flow and increase motorist safety by helping to reduce the number of rear-end crashes.

Thank you

We appreciate your patience while we delivered this important project.
