

## Start of work at the Industrial Drive and Tourle Street intersection, Mayfield West from Sunday 17 March

Roads and Maritime Services is upgrading this intersection to improve traffic efficiency and safety.

This upgrade is part of a larger project to upgrade the Industrial Drive intersections with Tourle Street and Werribi Street at Mayfield West.

Roads and Maritime will start the first stage of the project at the Tourle Street intersection. Work includes:

- Road widening to lengthen the existing left turn lane from Industrial Drive into Tourle Street, which will provide more capacity for motorists turning left.
- Extending the length of the merge lane on Tourle Street heading north to improve safety for merging motorists. A “zip” merge will be introduced to improve traffic efficiency for northbound traffic.
- Improving cycle safety at the intersection through the provision of wider road shoulders and off-road paths and building a concrete path from Industrial Drive to Murray Dwyer Circuit to connect to existing cycle facilities.

Roads and Maritime is currently preparing a design and environmental assessment for the Industrial Drive and Werribi Street intersection upgrade. We will continue to keep the community informed as the project progresses.

### Our working schedule

We will be working between **6pm** and **5am** from **Sunday** to **Friday** and expect to complete the project in **five months**, weather permitting. There will also be some additional day work between **7am** and **6pm Monday to Friday** and **8am to 1pm on Saturdays**. We will let you know in advance if we need to do any work outside these times.

### How will the work affect you?

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise completing noisier activities earlier in the night and turning off machinery and vehicles when not in use. The noisiest activities will be completed by 10pm.

### Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe. Lane closures and a 40km/h speed limit will be in place during work hours and may affect travel times.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.

## Contact

If you have any questions, please contact our Project Manager, David Liu on 02 4968 5223 or [David.Liu@rms.nsw.gov.au](mailto:David.Liu@rms.nsw.gov.au).

For more information on our projects, visit [rms.nsw.gov.au](http://rms.nsw.gov.au).

Thank you for your patience during this important work.

If you need help understanding this information, please contact the Translating and Interpreting Service on 131 450 and ask them to call us on 02 4968 5223.
