

Plans progressing on M5 Motorway westbound, Moorebank Avenue and Hume Highway upgrade

Transport for NSW is progressing with plans to improve the M5 Motorway for motorists travelling west between Moorebank Avenue and the Hume Highway.

Transport has identified a design to upgrade the M5 Motorway in this area to reduce congestion and improve the surrounding road network efficiency.

The project would also see a new two lane bridge across the Georges River, Powerhouse Road, railway lines and Lakewood Crescent to provide easier access to the Hume Highway exit.

Addressing this key pinch point would provide motorists travelling west between Moorebank Avenue and the Hume Highway with a smoother and safer journey.

Thank you to all those who have made a submission. The community consultation report is now available on the project website at nswroads.work/m5motorwaywestbound.

Transport for NSW will continue to provide the community with updates throughout the project.
