Work continuing on Mulgoa and Castlereagh Roads, Penrith from Wednesday 1 April 2020

The Australian and NSW governments are jointly funding the upgrade of Mulgoa Road, Penrith from Union Road to Museum Drive.

Work is continuing on this project to improve the traffic flow along the Mulgoa Road and Castlereagh Road corridor, including the High Street and Jane Street intersections, with most of the electrical and telecommunication utilities infrastructure now installed.
The work over this period will include the following activities:

- deliveries of equipment and materials
- completing work on the new bridge including the installation of retaining walls and fascia panels
- investigating, installing and relocating utilities
- constructing new drainage and a stormwater pump station
- constructing new road surfaces including earthwork
- working in the rail corridor.

How will the work affect you?

- There will be temporary traffic lane closures on Mulgoa Road, Castlereagh Road, High Street and Jane Street on weekdays and Sundays between 6pm and 7am.
- At times we may need to control the flow of traffic on the western side of High Street on weekdays between 10am and 3pm and Saturdays between 10am and 1pm.
- Pedestrian and cyclist detours will be in place on Mulgoa Road, Castlereagh Road, High Street and Jane Street for their safety.

At times our work may be noisy. We will minimise impacts by aiming to complete noisier tasks by 11pm and staging work in different locations.

Traffic changes

During lane closures there will be traffic control and a reduced speed limit of 40 kilometres per hour for the safety of workers, motorists, cyclists and pedestrians. For your safety please follow traffic signs.

Please follow direction of traffic controllers, speed and detour signs. All traffic changes will be temporary during our standard work hours. For the latest traffic updates call 132 701, or visit livetraffic.com.au
