

Safety improvements on the New England Highway south of Tamworth

The NSW Government is funding essential safety improvements on the New England Highway south of Tamworth. The work is being funded from a range of programs, including the Safer Roads Program.

Transport for NSW will carry out the work, which will involve rebuilding the road and improving drainage, on a two kilometre section of the highway, about 12 kilometres south of Tamworth between Meadows Lane and Kia Ora Lane.

We have included a map to show the location of the project.

Early work has now started with improvements to drainage, with major work to rebuild the 2.3 kilometre section of the highway set to start in the coming weeks. Work will be carried out from 7am to 5pm, and on Saturdays from 8am to 1pm, weather permitting. The work is expected to take three months to complete. We will let you know in advance if we need to do any work outside these times.

How will the work affect you?

The work will involve the use of machinery which generates some noise. We will make every effort to minimise noise by turning off machinery and vehicles when not in use.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe.

Some lane closures will be in place in the area where the work is taking place, with a reduced speed limit during work hours which may affect travel times.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

If you have any questions, please contact our Project Manager, Ngoni Zvarevashe on 02 6701 7925 Ngoni.Zvarevashe@transport.nsw.gov.au

Thank you for your patience during this important work.
