Scone Bypass Community Walk

Saturday 29 February 2020 9AM - 12PM

Transport for NSW invites you to the New England Highway bypass of Scone community walk between 9am and 12pm on Saturday 29 February.

You are invited to come along and walk a section of the bypass before it opens to traffic. Take in the walk, snap some once-in-a-lifetime photos and learn more about the project. A short ceremony will be held from 9am to officially open the bypass.

The round trip is about 3.5 kilometres long and takes in the three major bridges, which are key features of the bypass.

Entry to the walk will be via the intersection of St Aubins Street and the new bypass. On-street parking will be available on Aberdeen Street and Hill Street, with further parking available at the rugby club. The event will be limited to walking (no bicycles or scooters) with access for wheelchairs and prams.

We'll also have some assisted travel on buses for anyone who can't complete the walk.

If you think you will need mobility assistance on the day, please register with the project team to help us with planning:
