

## Baird Street intersection redesigned, based on community feedback

The NSW Government is funding \$20 million to upgrade the Newell Highway and Mitchell Highway intersection to improve safety and efficiency.

### New design for Baird Street intersection with the Newell Highway, Dubbo

The NSW Government has modified the design for the intersection at Baird Street and the Newell Highway after listening to the Dubbo community.

During the consultation process, Transport for NSW was made aware that restricting right turns around the intersection at Baird Street and the Newell Highway would impact commuters, residents and local businesses.

Based on the feedback, the NSW Government modified the design of the upgrade to include traffic lights, allowing a right hand turn onto Baird Street for vehicles travelling north on the highway.

Newell Highway traffic will also be able to turn right onto Baird Street to travel towards West Dubbo.

The installation of traffic lights at Baird Street will be part of the broader project to remove the roundabout at the Newell Highway and Mitchell Highway intersection and install traffic lights.

## How will the work affect you?

At this stage there is no impact to you or your property. The purpose of this letter is to keep you informed.

We will continue to provide you with more information about the changes at the intersection. The latest information can be found on the project's website and we will continue to speak directly to residents and business owners near the intersection.

## Contact

If you have any questions, please call 1800 803 818. For more information on our projects, visit [rms.nsw.gov.au](http://rms.nsw.gov.au). Thank you for your patience during this important work.
