

Utility relocation at Newell Highway and Baird Street intersection, Dubbo from Monday 18 May

The NSW Government is funding \$20 million to upgrade the Newell Highway and Mitchell Highway intersection to improve safety and efficiency.

Utility relocation at Newell Highway and Baird Street intersection, Dubbo

The existing roundabout at the intersection of the Newell Highway and Mitchell Highway will be removed and replaced with traffic lights. The intersection will also be widened as part of the safety improvements.

The next stage of the project includes extensive utility relocations, which started on 4 May and will continue throughout 2020. Telstra will be working on the Newell Highway, near the intersection with Baird Street, from Monday 18 May for approximately one week.

To help us keep you informed, we would like to have the name and address, mobile phone and email addresses of the residents and business owners who are near the intersection, so we can provide you with information about our work as quickly and easily as possible.

If you would like to provide your details, please call 1800 803 818 (toll free) or email dubboprojects@rms.nsw.gov.au and please let us know if you would prefer to receive information via email, text message or via your mailbox.

Telstra utility relocation work on the Newell Highway near Baird Street will be carried out at night between **6pm** and **6am** from **Monday** to **Friday** for one week.

Some of the utility relocation work is scheduled after hours to minimise the impact to local residents and businesses. Transport will continue to notify the community about the timeframe of any upcoming construction activities. This night work on the Newell Highway near Baird Street is expected to take one week to complete, weather permitting.

How will the work affect you?

Telstra utility adjustments will take place progressively on each of the four legs of the intersection of the Newell Highway and Baird Street. The work will involve the use of machinery. We will make every effort to minimise noise by arranging the work in stages at different locations, completing noisier activities earlier in the night and turning off machinery and vehicles when not in use.

We will notify you in advance and make every effort to minimise community impact wherever possible.

Access to businesses and residences will be maintained. Where possible all impacts will be minimised and we will consult with you directly if some temporary changes are necessary.

Traffic changes

There will be some temporary traffic control measures in place to ensure the work zone is safe. The Newell Highway will operate as contra-flow, under traffic control from East Street to Elizabeth Street for the safety of workers and road users.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
