

# Community Agreement

## Extended working hours in the underpass

### 1 January to 31 March 2020

Ferrovial York Joint Venture (FYJV) on behalf of Roads and Maritime Services and the NSW Government is delivering the Northern Beaches Hospital Road upgrade project.

We recently consulted with the local community about working additional extended hours in the underpass from 6pm to 5am, five nights per week, Monday to Friday from 1 January 2020 to 31 March 2020.

#### What work did we ask the community to agree to?

When contacting residents, the proposal was to continue road construction activities associated with the Warringah Road underpass, including:

- pouring concrete barriers
- laying asphalt
- erecting fascia panels
- line marking.

The work will be spread across the length of the underpass at different times.

The total number of residential addresses approached was 217, and 93% have agreed to the proposal.

Noise mitigations will be implemented in accordance with the project's Noise and Vibration Management Plan. As much of the work is located below ground level within the underpass, there is natural noise shielding provided by the underpass walls themselves. Extra noise mitigation will be implemented on a case by case basis.
