

Northern Beaches Hospital road upgrade project – Extension of time for traffic changes along Warringah Road to Saturday 27 July 2019

The NSW Government is upgrading roads around the new Northern Beaches Hospital to increase capacity on the road network and improve access through the area

Roads and Maritime Services is upgrading Warringah Road as part of the Northern Beaches Hospital road upgrade project.

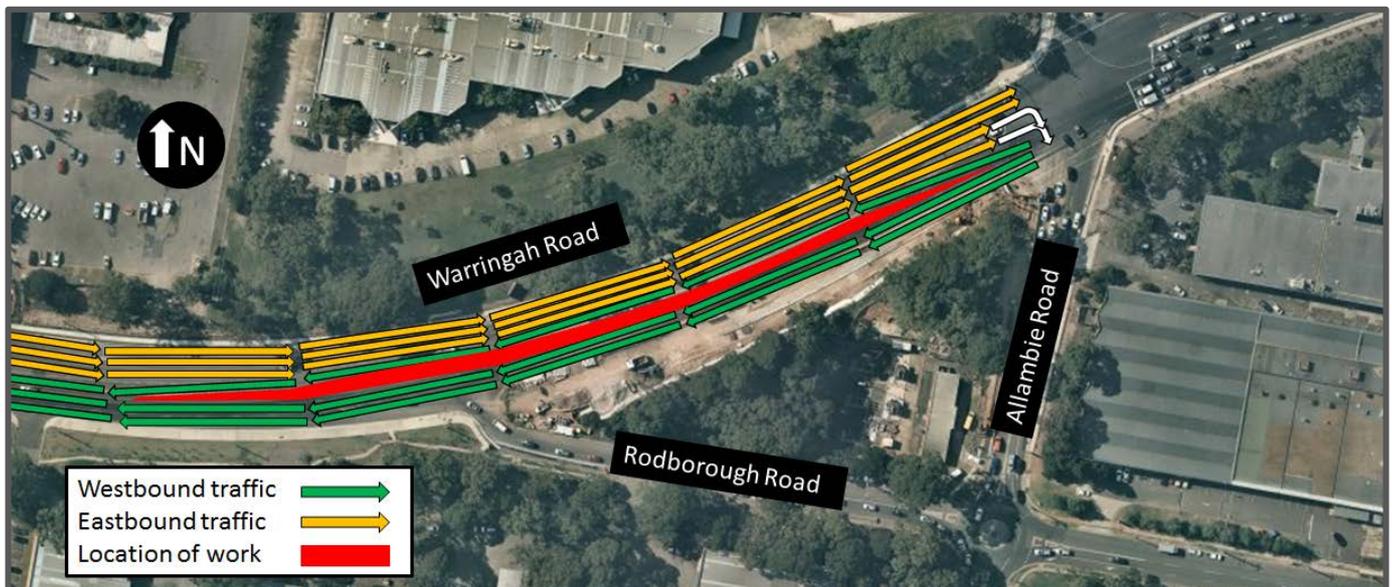

A temporary work zone is in place along **Warringah Road** between **Allambie Road** and **Wakehurst Parkway** for westbound traffic to complete the following work:

- installing drainage, kerb and gutter
- constructing a concrete median
- milling, road resurfacing, asphaltting and line marking.

This work was scheduled for completion by **Sunday 30 June**, but due to recent wet weather, this work area will remain in place until **Saturday 27 July**.

After removing the temporary traffic arrangement, we will continue to work in the area until **Saturday 17 August**, weather permitting, to finish the concrete median. To minimise the impact to traffic and for the safety of our workers, we will complete this work at night.

Map of traffic changes

Traffic changes

The traffic changes include:

- the established work zone will remain in place between the Warringah Road westbound lanes, with two westbound lanes on the left and one westbound lane on the right of the work zone
- the separation of the Warringah Road westbound traffic lanes around the work zone will remain in place from west of Allambie Road over a distance of approximately 350 metres.

The temporary traffic changes are needed to upgrade the road and to ensure the safety of workers, motorists, cyclists and pedestrians and will affect travel times. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW app.

When will we work?

Work will be carried out during our standard construction hours including **four night shifts per week** from **Monday to Sunday** from **8pm to 5am**. Three of these nights will include high impact noise (with only two consecutive high noise nights in a row), with an additional night of normal construction noise.

Details about planned out of hours work will be distributed separately to residents nearby as required.

How will the work affect you?

Potential congestion and delays may take place in this area including Warringah Road, Allambie Road and Rodborough Road. Motorists are encouraged to plan ahead and allow extra travel time.

The work will involve the use of machinery which may generate some noise. We will use noise shields to dampen noise where appropriate and ensure equipment and vehicles are turned off when not in use.

Contact

We are committed to minimising the impact of construction on the community and will continue to keep you informed as the project progresses. If you have any questions, would like to register for project and traffic updates or have any feedback, please contact our delivery partner, Ferrovial York Joint Venture.
