

Northern Beaches Hospital road upgrade Service relocation work continues from Monday 27 March

The NSW Government is upgrading roads around the new Northern Beaches Hospital with work proposed to be completed in 2018.

Roads and Maritime Services has been carrying out service relocation work throughout the project area for electrical services, telecommunications, stormwater drainage, water and gas.

Service relocation work will continue from **Monday 27 March**. Some of this work will be carried out during our standard construction hours between **7am** and **6pm** from **Monday** to **Friday**, and between **8am** and **1pm** on **Saturday**.

Due to the high volume of traffic and pedestrians in the area, some of the work will be carried out outside standard construction hours for safety reasons and to limit delays on the road network. This will include some **night work** between **6pm** and **7am** from **Monday** to **Friday**, and some **daytime weekend** work. There will be **up to 15 shifts** of out of hours work between **Monday 27 March** and **Wednesday 31 May**, weather permitting.

The work will involve the following key activities:

- underboring and drilling
- saw cutting on footpaths and driveways
- stringing new overhead power lines
- removing redundant poles and conduits
- relocating overhead communication poles

Additional activities to prepare the work area include:

- implementing safety, environmental and traffic controls for workers, vehicles and the public
- identifying existing services before work starts
- installing site fencing and barriers
- removing road signs and concrete medians
- delivering, unloading material and equipment
- line marking and removal
- reinstating surfaces
- constructing new kerb and guttering
- modifying and testing traffic lights.

Further notifications about specific work activities will be distributed as required.

We have provided a map to show the project area where the service relocation work is being carried out.

How will the work affect you?

The work will involve the use of machinery which may generate some noise. We will make every effort to minimise impact by notifying the community before work starts near their property. We will use noise shields to dampen noise where appropriate and ensure equipment and vehicles are turned off when not in use.

Portable lighting will be used and we will focus lights only on the working area, and minimise spillover of light into nearby residences.

We will schedule the work in stages at different locations, working in shifts so residents will not be affected for more than three consecutive nights per week and advising work crews of these mitigation measures.

Traffic changes

There will be some temporary traffic changes to ensure the safety of workers, motorists, cyclists and pedestrians. Lane closures or detours may be in place and may affect travel times. Pedestrian access will be maintained at all times, although minor temporary detours may be in place during the work.

Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, contact 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

We are committed to minimising the impact of construction on the community and will continue to keep you informed as the project progresses. If you have any questions, would like to register for project updates or have any feedback, please contact our delivery partner, Ferrovial York Joint Venture.

Call: 1800 014 307 (free call 24 hours per day)

Email: nbhcommunity@ferrovialyork.com.au

Write: PO Box 6040, Frenchs Forest NSW 2086

Visit: Community Information Centre, corner Wakehurst Parkway and Warringah Road (north eastern corner), Frenchs Forest NSW 2086, from 9am to 5pm, Monday to Friday

Website: rms.nsw.gov.au/nbh

Thank you for your patience during this important work.
