

Night Work Update

November 2020

Next week traffic monitoring 'loops' will be installed on the major roads in the area.

- **Warringah Road** from east of Maxwell Parade to east of Jones Street
- **Forest Way** from south of Adams Street to north of Naree Road
- **Wakehurst Parkway** from south of Warringah Road to south of Aquatic Drive
- **French Forest Road West** from Bluegum Crescent to west of Wakehurst Parkway.
- **French Forest Road East** from east of Harmston Avenue to west of Allambie Road.

This installation is not particularly noisy, but will involve traffic control vehicles to ensure that field operatives are safe working on and beside the road. We have included a map of the work locations overleaf.

Traffic control activities is planned between **8pm to 5am** on the following days, weather permitting:

- **Tuesday, 24 November:** low impact noise
- **Wednesday, 25 November:** low impact noise

Similar works will occur in two weeks when the devices are removed. The work is being done at night for the safety of motorists and workers. The teams will take steps to minimise noise where possible.

Please contact the Community team on **1800 014 307** or email nbhcommunity@nbhr.com.au if you would like to discuss.
