

Service investigations on Warringah Road from Tuesday 5 July

The NSW Government is upgrading roads around the new Northern Beaches Hospital with work proposed to be completed in time for the hospital opening in 2018.

Roads and Maritime Services will carry out service investigations along Warringah Road, between Allambie Road and Rodborough Road from **Tuesday 5 July**.

The work will involve:

- Surveying
- Potholing and identifying existing underground services
- Drilling holes to assess ground conditions
- Carrying out pavement condition testing.

We have provided a map to show the location of the work.

Due to the high volume of traffic in this area, this work will be carried out at night for safety reasons and to limit the impact on the road network. There will be up to **3 shifts of night work** from **Tuesday 5 July** until **Tuesday 12 July**, between **6pm** and **7am**, weather permitting.

How will the work affect you?

There will be some lighting and noise associated with this work. Machinery and equipment used may include lighting towers, demolition saw, jackhammer, vacuum truck, and hand tools.

We will make every effort to minimise noise by arranging the work in stages at different locations, working at night only when necessary and using flexible noise shields where possible to reduce noise generated by construction activities. We will carry out the work in shifts so you will not be affected for more than three consecutive nights per week. Lighting towers will be directed away from residential properties wherever possible.

Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe. Two lanes will be closed during the work, with traffic diversions in place that may affect travel times. Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Contact

We are committed to minimising the impact of construction on the community and will continue to keep you informed as the project progresses. If you have any questions, would like to register for project updates or have any feedback, please contact Ferrovial York Joint Venture.
