Temporary footpath closure on the southern foreshore, Nowra

The footpath approaching the Shoalhaven River Bridge from Scenic Drive will be temporarily closed from early June 2020 to mid-2022.

As part of the Nowra Bridge project, a large work area will be established next to Scenic Drive at Moorhouse Park. This area will store construction material and equipment and will be used to make concrete to build the new Nowra Bridge.

How will the work affect you?

For the safety of the community, the footpath approaching the Shoalhaven River Bridge from Scenic Drive will be temporarily closed for up to two years while the new bridge is built.

Pedestrians will be diverted from the southern foreshore to Scenic Drive. We will build a new temporary path along Scenic Drive connecting to Bridge Road and the Princes Highway.

To maintain pedestrian access to the southern foreshore and Wharf Road, temporary stairs will be installed between the bridge work area and the existing northbound bridge. The stairs will include reflectors to minimise any potential hazards in low light conditions.

Cyclists and people who are mobility impaired will be able to cross the Princes Highway at Bridge Road and use the existing pathway north of Pleasant Way to access the foreshore.
Work to build the temporary path and stairs will be carried out between **7am and 6pm Monday to Friday** and **8am and 1pm Saturdays**, weather permitting. The temporary path will be in place before the existing path is closed. There may be some work required at night in some locations to reduce impacts on traffic flow. Nearby residents and the community will be notified in advance of this work.

**Traffic changes**

The cul-de-sac at the eastern end of Scenic Drive will be closed to all traffic except project construction vehicles from late May. Please keep to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Thank you for your patience during this important work.
