The NSW Government is funding this $70 million project to improve traffic flow and safety, while catering for future traffic growth. The upgrade involves widening the highway to provide two lanes in each direction between Ourimbah Street, Lisarow and Glen Road, Ourimbah.

Major construction work started in March 2016 and is expected to be completed by late 2018, weather permitting.

Construction update
Work is progressing well in favourable weather conditions. Our progress to date includes:

- completing two new northbound bridges over Cut Rock Creek
- removing the existing bridge
- switching all traffic to the newly constructed northbound road to enable southbound work
- completing a new pedestrian footpath on the western side of the new roadway
- earthwork for the southbound road
- relocating utilities south of the twin bridges
- installing traffic barriers, railings and shared pathway and the first layer of asphalt.

Upcoming work
Planned activities over coming months include:

- completing stormwater drainage work from Walmsley Road to Glen Road
- beginning intersection earthwork at Walmsley Road
- constructing the southbound road, including switching on new traffic signals at Teralba and Ourimbah Streets
- finishing the new southbound bridge over Cut Rock Creek.
Bus stop changes

The project requires changes to bus stops in the area. This includes:

- permanently removing the northbound and southbound bus stops at Ourimbah Street
- building a new northbound bus stop about 100 metres north of Ourimbah Street
- relocating the northbound Teralba Street bus stop about 200 metres further north to be opposite the new southbound bus stop.

Working with the community

Around 29,000 vehicles a day travel through this section of the Pacific Highway. Roads and Maritime Services continues to work with the community and stakeholders to minimise the disruption caused during construction. We will continue to keep you informed via letterbox drops, signage, traffic alerts, updates to the Live Traffic NSW website and through the project web page at rms.nsw.gov.au/lisarow-ourimbah.

Contact

We appreciate your feedback about our communication with you and encourage you to complete our short survey at rms.nsw.gov.au/lisarow-ourimbah.

If you have questions about this work, please contact our delivery partner, Civil Mining and Construction, on 1800 247 377 (24 hours). For further information about the project, please contact our Roads and Maritime Project Manager, Eduardo Forcadilla on 02 4379 7001 during business hours.

If you need help understanding this information, please contact the Translating and Interpreting Service on 131 450 and ask them to call us on 1800 247 377.
