

Proposed parking removal on the Pacific Highway, between Merriwa Street and Ryde Road, Gordon

The NSW Government is upgrading Sydney's road network, easing congestion, improving traffic flow, reducing travel times and making the roads safer

The Pacific Highway is a key corridor for moving people and goods. Each day around 50,000 road users travel on the Pacific Highway between Merriwa Street and Ryde Road, Gordon.

We know that congestion is causing people to spend more and more time on the road, rather than doing the things they like. That's why Roads and Maritime Services is carrying out a number of initiatives along the Pacific Highway to ease congestion, improve travel times and reduce delays.

Earlier this year we completed work upgrading the Mona Vale Road and Ryde Road intersection on the Pacific Highway. This project increased the number of turning lanes and has eased congestion and improved traffic flow onto Mona Vale Road and Ryde Road from the Pacific Highway.

To build on this project, we are proposing to install a No Stopping zone on the Pacific Highway between Merriwa Street and Ryde Road, Gordon. This will mean removing 23 parking spaces on the northbound side of the Pacific Highway between Merriwa Street and Ryde Road, Gordon.

This proposal will also increase the traffic flow through the intersection and travel time reliability. It will also improve safety by removing parked or stopped vehicles from the kerbside lane, which can cause traffic to stop suddenly and contribute to rear end crashes.

Have your say

To find out more or provide feedback by **29 October 2019**:

What happens next?

Subject to feedback, the new No Stopping signs are planned to be implemented in November 2019.

We will inform you again before we start work.

If you have any questions about the proposal, please contact us on (02) 8849 2685 or pacifichighway@rms.nsw.gov.au

What are we doing?

We propose to remove the existing parking spaces and installing No Stopping signs between Merriwa Street and Ryde Road along the Pacific Highway.

Removing parking on the Pacific Highway in this area will help ease congestion for northbound motorists and public transport users by making all lanes available for use. This will have an immediate positive impact on traffic flow as it utilises existing road space to move vehicles and buses.

What are the benefits of removing the parking?

Removing parking spaces between Merriwa Street and Ryde Road in Gordon will:

- improve safety
- improve traffic flow
- reduce delays.

How will this impact me?

Changing the kerbside lane to No Stopping will mean removing 23 northbound parking spaces in this area. Our investigations have shown there is a good amount of off-street parking and nearby on-street parking to meet the needs of the local community and businesses.

What is No Stopping?

No Stopping means within the area in the direction of the arrow you must not stop your vehicle at any point on the road or kerb, unless there is a medical or other emergency. The proposed No Stopping on the Pacific Highway will operate 24 hours a day.

Translating and Interpreting Service

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on **131 450** and ask them to telephone Roads and Maritime Services on 1300 706 232.
