

## Weekend work near Railway Crescent and Pacific Highway, Lisarow from Saturday 8 June

The NSW Government is investing \$178 million to upgrade the Pacific Highway between Ourimbah Street and Parsons Road, Lisarow to improve traffic flow, travel times and safety. Roads and Maritime Services has contracted Daracon Group to deliver this project.

Work within the rail corridor must be timed to occur on weekends when the rail line is closed for maintenance.

We will be working between **6am and 6pm from Saturday 8 June to Monday 10 June**, during the next scheduled rail shutdown, weather permitting.

Work will include clearing, survey and services location work near the Pacific Highway and Railway Crescent intersection. Work will also include installing barriers, survey and clearing of vegetation in the rail corridor and next to the railway carpark which will require the closure of the Pacific Highway for up to 15 minutes at a time. We have included a map to show where the work will be carried out.

### How will the work affect you?

The out of hours work will involve the use of machinery which generates noise. We will carry out noise monitoring during work hours and directly affected residents will be consulted in the lead up to the start of work.

There will be no parking at the carpark at Lisarow Station on **Saturday 8 June between 9am and 3pm** to ensure the safety of the public.

### Traffic changes

There will be some temporary traffic changes to ensure the work zone is safe. Traffic controllers will be in place and traffic in both directions on the Pacific Highway will be stopped for up to 15 minutes at a time to allow work to be completed safely.

Motorists should plan their journey, stick to speed limits and follow the direction of traffic controllers and signs. For the latest traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.

### Contact

If you have any questions or complaints, please contact the project information line on 1800 560 667.

For more information on our projects, visit [rms.nsw.gov.au](http://rms.nsw.gov.au).

We thank you for your patience while this work is carried out.
