

## Work to start on new roundabout at Polo Flat Road and the Monaro Highway, Cooma

Transport for New South Wales is building a roundabout at the intersection of the Monaro Highway and Polo Flat Road to increase safety and efficiency at this location.

### Design for the new roundabout

Polo Flat Road provides access to Cooma's industrial area and carries a high number of heavy vehicles. The new roundabout will deliver safer journeys for light and heavy vehicles sharing the road. A dedicated right turn lane for motorists turning into Yallakool Road will also be built as part of this upgrade.

In order to complete the roundabout before the busy winter period we are planning to start construction next week. Construction is likely to take around four months to complete.

## How will the work affect you?

Work will be carried out on Monday to Friday between 7am and 6pm and on Saturdays between 8am and 1pm.

Traffic control and a reduced speed limit of 40km/h will be in place during work hours and there may be some lane closures on the Monaro Highway to allow for this work.

You will be notified in advance if access to Polo Flat Road or Yallakool Road is affected.

Motorists are advised to follow the advice and direction of traffic controllers.

### **Access to school bus stops**

Bus stops on Yallakool Road and the Monaro Highway are located outside the project boundary and will not need to be relocated. However, we would like to hear from parents who may have children passing through the worksite to use the bus stops so we can organise safe access through the site.

## Contact

If you have any questions, please call Transport for NSW Project Manager Craig Robinson on 02 42212541. For more information on our projects, visit [rms.nsw.gov.au](http://rms.nsw.gov.au).

If you need help understanding this information, please contact the Translating and Interpreting Service on 131 450 and ask them to call us on 02 42212541.
