Dear Resident

## Upgrades to the Princes Highway at Kirrawee

We acknowledge that the upgrade works in your area are taking longer than originally anticipated and that they have not been significantly progressed in recent months.

Local communities and road users expect project milestones to be met and that important infrastructure projects are delivered while understanding and managing the needs of local residents. We acknowledge this project has not met these expectations so far and will do everything we can to rectify this.

We intend to prioritise work that resolves issues directly impacting residents and businesses along the corridor that have been affected by the rate of progress in recent months.

We note that there has been unsubstantiated information circulating within the community through social media channels. We encourage you to direct any enquiries or concerns to [aokp@transport.nsw.gov.au](mailto:aokp@transport.nsw.gov.au) or 1800 943 033 for our direct response.

We sincerely appreciate your patience during this period.

Yours sincerely

Lara Kirchner  
Director  
Central River City
