

Pymont Bay Wharf upgrade

JULY 2014

Overview

The existing Pymont Bay Wharf viewed from the water.

The NSW Government is upgrading Pymont Bay Wharf. The new facility will improve safety and amenity for customers.

The new wharf is being delivered as part of the NSW Government's \$770 million Transport Access Program – an initiative to deliver modern, safe and accessible transport infrastructure. The Transport Access Program has already delivered new facilities at Milsons Point, Neutral Bay, Rose Bay, Balmain Thames Street and Huntleys Point. Upgrades at Mosman Bay and Drummoyne wharves are currently under construction.

The upgraded wharf will provide:

- Better protection from the wind, rain and sun
- Improved safety for customers
- Improved access for mobility impaired customers and customers with prams
- Quicker and more efficient boarding and disembarking.

It is expected work will start in the first half of 2015 and construction will take approximately four to five months. The existing wharf will be temporarily closed and no ferry services will operate to the wharf during the upgrade.

All efforts will be made by the project team to reopen the wharf as soon as possible.
