FEBRUARY 2015

## Road improvements to reduce congestion on Richmond Bridge and approaches

The Australian and NSW governments are planning to reduce congestion on Richmond Bridge and approaches to cater for current and future traffic needs. The Australian Government has committed \$18 million in funding to improve traffic conditions at three intersections.

---

In August 2014, Roads and Maritime Services invited feedback from local businesses, residents and stakeholders on a proposal to upgrade the intersection of Kurrajong Road, Yarramundi Lane and Old Kurrajong Road, Richmond, known as Stage 1. The proposal included:

- Widening the intersection to allow for a dedicated right turn lane from Kurrajong Road into Old Kurrajong Road for motorists travelling south
- Providing a dedicated left turn lane from Old Kurrajong Road into Kurrajong Road including a westbound acceleration lane.

Following assessment of this feedback, Roads and Maritime considers the proposal to have general support from stakeholders and the community and will go ahead with carrying out these intersection improvements.

A copy of the community consultation report which summarises the comments, responses and details of the decision can be viewed on the Roads and Maritime website by following the links to Sydney West and Richmond Bridge and approaches at [rms.nsw.gov.au/projects](http://rms.nsw.gov.au/projects). A diagram of the improvement work is provided over the page.

Stage 2 of the Richmond Bridge and approaches program of work proposes improvements at the following intersections:

- Bells Line of Road with Grose Vale Road
- Kurrajong Road and Bosworth Street.

The community and stakeholders will be invited to provide feedback on Stage 2 in mid 2015.

### Construction work

Work to build the Stage 1 road improvements will start **Monday 9 March 2015**. Most work will occur during the day with some night work required. Work during the day will be carried out from **7am to 6pm Monday to Friday, and 8am to 1pm on Saturdays**, weather permitting. Residents will receive additional notification before any night work. Work will take about one year to complete, weather permitting.

Lane closures will be in place while the work is carried out to ensure the safety of road users and workers. Road users are asked to follow the direction of traffic controllers, adhere to reduced speed limits and follow traffic signs.

There will be some noise associated with this work, but every effort will be made to minimise the impact on residents. We apologise for any inconvenience this work may cause and appreciate the patience of residents and road users.

Roads and Maritime will continue to keep the community informed about this project.
