

Project update – work continuing at the intersection of Bells Line of Road and Grose Vale Road/Terrace Road, North Richmond

Roads and Maritime Services | July 2018

The Australian and NSW governments are improving traffic conditions at key intersections on approach to Richmond Bridge.

Roads and Maritime Services is delivering this project which involves improving the intersection of Bells Line of Road/Terrace Road and Grose Vale Road, North Richmond.

The project will improve travel times and traffic flows during peak periods.

Project progress and next stage

We have surveyed the site, relocated the water main and communication services, completed some tree removal, carried out demolition work, finished all property adjustments and started installing the new lanes. The next stage of work includes:

- utility relocation work
- installing or improving dedicated turning lanes on all sides of the intersection
- providing two westbound lanes from Pitt Lane to about 90 metres west of Grose Vale Road
- removing 21 parking spaces and relocating bus zones
- installing seven 15 minute parking spaces on the eastbound side of Bells Line of Road.

Our work schedule

We will be back on site to complete the third stage of work for another **65 night shifts** and **78 day shifts** between **Monday 2 July** and **Saturday 29 September**, weather permitting.

Our night work hours will be between **7pm** and **7am** from **Sunday** to **Friday**. Our day work hours will be between **7am** and **7pm** from **Monday** to **Friday** and between **8am** and **1pm** on **Saturday**.

The project team will not be on site at all times because of the way we are staging the program of work.

We will not be working public holidays.

A map has been included to show the location of the work.

How will the work affect you?

Our work may be noisy at times but we will continue to do everything we can to minimise its impact, including completing the noisier tasks by **midnight** and staging them in different locations.

Traffic changes

There will be temporary traffic changes during our work hours to ensure the work zone is safe. Lane closures will be in place and may affect travel times. For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App

Please keep to the speed limits and follow signs and traffic controllers' directions.

Service road

From July we will carry out work along the service road. The work will be staged at different locations. At least seven car spaces will be available at all times between **7am** and **7pm** from **Monday to Friday** and between **8am** and **1pm** on **Saturday**.

No car spaces on the service road will be available between **7pm** and **7am** from **Sunday to Friday**

The location of the spaces will need to shift during our work to allow us to safely complete the work. Changes will be signposted and traffic controllers will be available to facilitate traffic.

Bus stop

In July we will be moving the bus stop to the location indicated in the map of the final design below. This move will be temporary and the bus stop will need to be temporarily moved again before we complete the work. We will place signage at the bus stop closer to the date ‘

Thank you

Thank you for your patience during this important work.
