## Night investigation work on Boundary Street, Roseville – Pinch Point Program

Roads and Maritime Services will carry out essential geotechnical investigation work as part of the NSW Government's Pinch Point Program from Monday 4 August.

This \$20 million project is part of the NSW Government's \$246 million Pinch Point Program which aims to reduce delays, ease congestion and maintain travel times on Sydney's main roads particularly during week day peak periods. Roads and Maritime has contracted DownerMouchel to complete this work.

To minimise traffic disruptions, Roads and Maritime will carry out this essential work at night from **8pm to 5am** between **Monday 4 August and Friday 8 August**, weather permitting.

Roads and Maritime will widen Boundary Street in Roseville, on the northern side, from the Pacific Highway to Melnotte Avenue. We have provided a map to help you better understand the project. This map shows that traffic can travel from Boundary Street across to Corona Avenue.

Project benefits include:

- Improved traffic flow and reduced traffic delays
- Improved road safety for all user groups
- Improved bus manoeuvrability
- Added pedestrian and cyclist facilities in support of active transport
- Enhanced urban design.

The investigation activities will inform the road design and includes geotechnical drilling at four positions along the northern side of Boundary Street. The majority of the work will be carried out using drills and hand-held equipment. Staff will not need to access any private properties during these investigations.

### **Changed traffic conditions**

Minor delays are expected due to changed traffic conditions. Partial lane closures will be in place while night work is carried out to ensure safety of road users and workers. Pedestrians and road users are asked to follow the direction of traffic controllers, adhere to reduced speed limits and follow traffic signs.

Up to five car spaces along the eastern side of Hill Street will be temporarily unavailable for two nights during the investigation activities.

There will be noise associated with this work, but every effort will be made to minimise the impact on residents and businesses. Noise and vibration monitoring will be carried out throughout the work.

Roads and Maritime and DownerMouchel apologise for any inconvenience this work may cause and appreciate the patience of residents and motorists.

Up to date information, including any date changes and detours, will be displayed on electronic message signs along the road.

For further information please contact DownerMouchel on 1800 332 660 or enquiries\_nsw@downermouchel.com.

Outside business hours, or for more information on scheduled road work, visit [www.livetraffic.com](http://www.livetraffic.com) or download Live Traffic NSW App or call 132 701
