Transport for NSW will begin Stage 3 of the road and safety upgrades in the Royal National Park on 31 August 2020. The work was subject to public consultation in April 2020.

**Stage two – McKell Avenue slope rehabilitation**

The McKell Avenue slope rehabilitation and culvert replacement is now underway. Our night work is expected to be complete by **late August 2020**. The remaining work to be undertaken during the day and the project is expected to be complete by **mid September 2020** (weather permitting).

Night work hours are 7pm to 7am, Sunday to Thursday. Detours will be in place during night shifts. Visit [nswroads.work/RNPupgrades](http://nswroads.work/RNPupgrades) or call 1800 677 700 for detour route information.

Day work hours are 7am to 6pm, Monday to Friday, with single lane closures in place. Road users should expect short delays. We will not work weekend days or public holidays.

**Stage three – Flat Rock Creek bridge replacement – road closures on Sir Bertram Stevens Drive from September 2020**

In **late August 2020**, Transport for NSW will begin work to replace the bridge over Flat Rock Creek, on Sir Bertram Stevens Drive. The work requires closing Sir Bertram Stevens Drive from **Friday 4 September** until the bridge has been replaced and the road can re-open to traffic, which is expected by **late October 2020**, weather permitting.

Detours will be in place for the duration of the road closure (refer to the detour map below).

Transport for NSW understands this might have an impact on Bundeena and Maianbar businesses during the spring months, however, the condition of the 75 year old bridge requires we undertake the work as soon as possible. We’ll make every effort to complete the work quickly, including working day and night shifts, seven days a week.

We’re sorry for any inconvenience our work may cause, and we thank the local community for its patience.
Traffic changes

There will be temporary traffic changes during our work hours to ensure the work zone is safe. Please keep to speed limits and follow signs and traffic controllers’ directions.

You can find our detour maps for the work on McKell Avenue and Flat Rock Creek bridge on the project webpage - nswroads.work/RNPupgrades.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

Keep up to date

We’ll keep the public advised of the project via the project webpage – nswroads.work/RNPupgrades – and by regular email updates. Send an email to nswenquiries@vba.jv.com.au or telephone 1800 677 700 to be added to the update list.

Engaging with the Community

To ensure we protect public health and safety during the Coronavirus outbreak, we have had to change the way we consult with the community. Please be assured we will continue to respond to any questions or concerns you may have about our work.
