

Airport North Precinct: September 2020

The NSW Government is upgrading roads north of Sydney's Kingsford Smith Airport to improve traffic flow and connections to and from the Airport and Port Botany.

The priority for this month is to complete the final stages of the project. Landscaping has been progressing well with topsoil, mulch and planting taking place across the project. We have also completed paving the final asphalt layer on the northbound lanes. We will be completing the southbound lanes later this month.

In July and August, we completed the northbound lanes in five weekend closures. The weekend closures cut eight months off our completion date and have allowed us to begin finishing work. The project is planned to be complete by **early October 2020**.

The key benefits for the completed project are:

- improved pedestrian and cycle access to and from the airport along O'Riordan street including an upgraded footpath on the eastern side of O'Riordan Street
- improved traffic flow at peak times from increased average travel speeds across the area
- six through lanes on O'Riordan Street between Bourke Road and Robey Street
- coordination with changes to Sydney Airport internal roads network seeing improved traffic flow into and out of the airport.

General work which will be occurring during September 2020 are:

- use of site compound and work zones including excavation and material removal
- service identification, relocation and cutovers, including utility trenching and drainage work, installing light poles, traffic loops, protection slabs, pit lids and traffic signals
- pavement work including concrete work, completing footpaths, milling, laying and compacting asphalt.
- traffic management and roadworks including sign and barrier adjustment and installation, temporary traffic changes and pedestrian detours including the temporary traffic changes along O’Riordan Street.

Standard construction hours for the **Airport North project** during COVID-19 are from **7am to 6pm, Monday to Sunday**. Our out of hours working hours are **7:30pm to 5am, Monday to Sunday**.

Out of hours night shifts for September 2020, weather permitting

SEPTEMBER 2020						
SUN	MON	TUE	WED	THU	FRI	SAT
30	31	1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30	1	2	3

Key

Night shifts (7:30pm to 5am)

3 No night shifts

There may be some noise, vibration and disruption associated with this work. Machinery and equipment used may include trucks, excavators, paving machines, rollers, lighting towers, road saws, plate compactors, vacuum trucks, grinders, cranes, elevated work platforms, chainsaws, light vehicles, hand tools, concrete trucks and equipment. We will continue to make every effort to minimise the impacts to the local community.

For the latest traffic updates, call 132 701, visit livetraffic.com or download the Live Traffic NSW App.

If you have any questions about the work on either project, please contact our delivery partner, John Holland Group on **1300 862 844** or comms.airportprecinct@jhq.com.au.
