WestConnex enabling works – airport east precinct

Roads and Maritime Services is planning to upgrade roads east of the airport and remove the General Holmes Drive rail level crossing. This will improve traffic flow and access to the airport, Port Botany and, in the future, the WestConnex motorway.

The strategic concept design for the proposed upgrade is on display for community comment until Friday 13 December 2013.

Background
Sydney Kingsford Smith Airport and Port Botany are two of Australia’s most important international gateways. The roads around the airport and Port Botany are becoming increasingly congested due to rising numbers of passenger and freight vehicles. This proposal will support the development of the WestConnex motorway, which will improve access between this area and Western Sydney.

The proposal is consistent with the State Infrastructure Strategy, Long Term Transport Master Plan and draft Airport Master Plan.

A number of options to support future growth, improve access, reduce congestion and improve the movement of freight have been considered.

The current proposal has been assessed as best meeting the needs, with the least impacts. For more information on the assessment of the options, see the proposal report at www.rms.nsw.gov.au/roadprojects/AirportEast or contact the project team.

Key features and benefits

Key features and benefits of the proposal are:

- Replace the General Holmes Drive rail level crossing with a road underpass that links General Holmes Drive, Botany Road and Wentworth Avenue to improve the movement of rail freight and improve access to the airport, Mascot and the eastern suburbs.
- Improvements to the Mill Pond Road intersections with General Holmes Drive and Botany Road to support future growth and access to the airport.
- Widen Joyce Drive and General Holmes Drive between O’Riordan Street and Mill Pond Road to three lanes in each direction to improve traffic flow around the airport and to Port Botany.

Community involvement

Roads and Maritime recognises the importance of involving the community in the development of this proposal. Feedback received will be considered and addressed in the community issues report which will be available at www.rms.nsw.gov.au/roadprojects/AirportEast or on request. Further opportunity for the community to comment on the proposal will be available with the display of the concept design and the environmental impact assessment.
