

# Northern Toll Plaza Precinct Upgrade

## Project Update

Transport for NSW | November 2020

Work is progressing well on the northern toll plaza precinct upgrade since work began in June 2020.

The removal of the toll booths and tolling office was completed in August.

We are now working on the eastern side of the northern toll plaza.

In early January 2021, we will work on the western side the plaza.

Work is expected to be completed in the second half of 2021

### Extended working hours

From Monday 9 November our work hours will be from **7am to 6pm** every day in line with the NSW Government's COVID-19 approved construction hours. Our day work hours are being changed to provide for social distancing on site and still complete the work on time.

Our night work hours will also be extended from **6pm to 5am** Sunday to Friday. During this time, we will continue to work up to five nights a week with respite periods.

### How will the work affect you?

This work will be noisy at times, but we will do everything we can to lessen its impact including scheduling noisier work during the day and completing noisier activities by midnight.

### Addendum Review of Environmental Factors

An addendum to the Review of Environmental Factors has been prepared and is now available on our project webpage.

The Addendum assesses the addition of a bus readiness facility to the northern toll plaza.

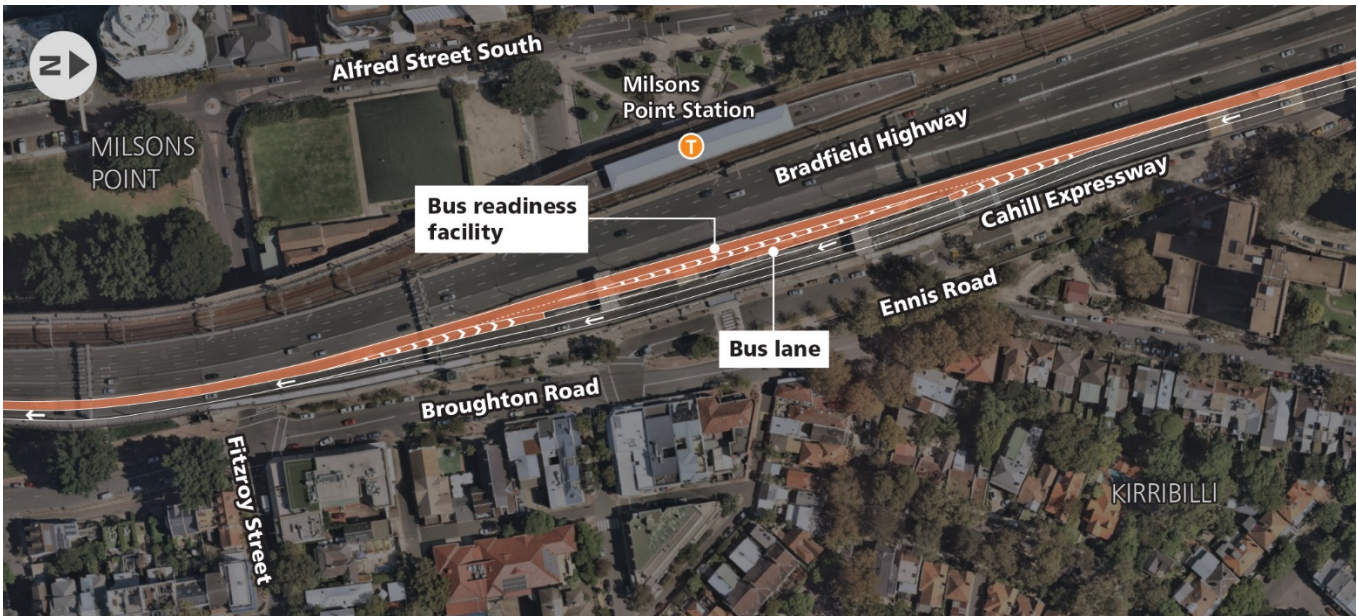

The bus readiness facility is an area that buses can use to return to schedule when servicing the CBD, improving journey reliability and punctuality.

### Stay informed

You can opt-in to receive updates by email by contacting us at [SydneyHarbourBridgeProjects@rms.nsw.gov.au](mailto:SydneyHarbourBridgeProjects@rms.nsw.gov.au).
