

# Weekend shutdown of Cahill Expressway from 8pm Friday 31 July to 5am Monday 3 August

As part of the Northern Toll Plaza Precinct Upgrade, Transport for NSW will close the Cahill Expressway to motorists from **8pm Friday 31 July to 5am Monday 3 August 2020**. The bus lane will remain open for buses and taxis during the day.

During this closure we will remove the toll booths and office.

Investigations that involve digging into the road surface will also be done on the Sydney Harbour Bridge.

## How will the work affect you?

During the weekend closure we will work continuously

Our work might be noisy at times but we will do everything we can to reduce its impact, including carrying out noisier work during the day where possible.

We will also lessen the impacts by using equipment fitted with noise reduction devices where possible and will carry out noise monitoring at night.

## Temporary detours and traffic advice

To create a safe work zone, changes to traffic will occur during this weekend closure.

The Cahill Expressway (lanes 7 and 8 of the bridge) will be closed at High Street Kirribilli and motorists will be encouraged to use the Bradfield Highway (lanes 1 to 6 of the bridge). The Sydney Harbour Tunnel will remain open. Vehicles detouring onto the Bradfield Highway will be able to join the Cahill Expressway at the southern end of the bridge to continue their journey.

Detour map for High Street Kirribilli on-ramp closure to the Cahill Expressway

A lane will be open for buses so they can operate from 10am to 7pm on Saturday and Sunday.

A safe work zone will also be in place on Ennis Road Milsons Point, with pedestrian and vehicle access changes from **9pm Friday to 9am Saturday** and **9pm Saturday to 9am Sunday**.

Please plan ahead and allow extra travel time. Motorists are advised to drive to the conditions and follow the directions of signs and traffic control.

Thank you for your patience while we deliver this important work.

## Stay informed

We will keep you informed with regular project information on the project website.

For the latest traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.
