

Investigation work on the Sydney Harbour Bridge from Tuesday 21 August until 22 August 2018

Roads and Maritime Services is continuing to plan to modernise and improve access to the Sydney Harbour Bridge through a coordinated approach to the improvement and maintenance of the Bridge.

Roads and Maritime Services will carry out investigation work to inform the design for the proposal for the northern toll plaza precinct upgrade and other projects.

Removing the toll booths at the northern end of the Bridge will simplify traffic movements, and improve safety for motorists travelling southbound between the Warringah Freeway and the northern approach to the Sydney Harbour Bridge.

Upcoming work will include using a small drilling rig to drill small boreholes in the road surface to examine existing conditions. This drilling will happen on the Cahill Expressway between Burton Street and Fitzroy Street.

Due to traffic conditions this work needs to be done at night. To minimise impact on residents and reduce the number of road closures in the area, it will be done at the same time as scheduled maintenance.

The work will be done in stages over **two** shifts from **Tuesday 21 August** to **Thursday 23 August**, weather permitting. Our working hours will be from **10pm to 4am**.

We have included a map to show the location of the investigation work.

Our Sydney Harbour Bridge maintenance team will also be working during this time, noise from this work will be kept to a minimum.

How will the work affect you?

There will be some noise associated with the drilling work. We will make every effort to minimise noise by completing the work as quickly as possible. Lighting towers will be directed away from residential properties, where possible.

Traffic changes

Southbound lanes 6,7 and 8 will be closed during the work from 9:30pm to 5am. Two southbound lanes on the Sydney Harbour Bridge will be available during the closure to allow access into the city. Lane closures may affect travel times.

Electronic message signs will be in place to direct road users. Please keep to speed limits and follow the direction of traffic controllers and signs.

For the latest traffic updates, you can call 132 701, visit livetraffic.com or download the Live Traffic NSW App.
