Dear Mr Gilham

**The Northern Road Upgrade (SSI 7127) – Construction Management Plans for Soil and Water (including monitoring program) and Contaminated Land, and Air Quality Monitoring Program.**

I refer to your letters on 23 August, 27-28 September and 15 October 2018, seeking the Secretary's approval for the following Construction Environmental Management Plan (CEMP) sub-plans and monitoring programs for The Northern Road Upgrade (SSI 7127):

CEMP Sub-plan	Revision and Date	Condition
Construction Soil and Water Management Plan (Appendix B4 of the CEMP), including the Water, Soil and Contamination Monitoring Program	Version 2, 22 September 2018	C4 to C6 and C9 to C12
Contaminated Land Management Plan (Appendix B8 of the CEMP)	Version 2, 27 September 2018	C4 to C6
Air Quality Monitoring Program (Appendix B6 of the CEMP)	Version 1, 21 August 2018	C9 to C12

The Department has carefully reviewed the plans, programs, and supporting information and considers that the updated documents satisfy the relevant conditions. I therefore approve the above documents.

I note that, in part, the management plans and monitoring program rely on the contractors' management plans and associated documents to address some of the detailed management and mitigation measures identified for specific stages of the project. I also note that RMS has made a commitment to review the contractor's documents to ensure consistency with the CEMP and sub-plans. You are reminded that RMS remains responsible for demonstrating compliance with the conditions of approval prior to construction commencing.

Please ensure you make all plans publicly available on the project website.

If you have any queries regarding this matter, please contact Carl Dumpleton, Team Leader - Roads on 02 9274 6283 or [carl.dumpleton@planning.nsw.gov.au](mailto:carl.dumpleton@planning.nsw.gov.au).

Yours sincerely
