

Wilde Avenue and Victoria Road, Parramatta

Bus priority improvements update

Transport for NSW | May 2020

Bus priority improvements consultation

Transport for NSW would like to thank everyone who gave their feedback about the proposed Wilde Avenue and Victoria Road, Parramatta bus priority intersection improvements in late 2019. We got in contact to tell you about the proposal and to invite you to comment about it as part of our public consultation, which ran from 28 October to 18 November 2019.

The bus priority intersection improvements would reduce delays for bus customers and motorists as part of the NSW Government's Bus Priority Infrastructure Program. The program is linked to the NSW Government's roadmap to deliver the state's future transport network, the Future Transport Strategy 2056.

Project location

Consultation findings

Following consultation with the City of Parramatta Council and Parramatta Light Rail we began the public consultation for the proposed bus priority intersection improvement project.

More information is available on the project webpage at rms.work/wildevictoria. This includes our October 2019 community update.

We received a small number of responses through meetings, phone calls and emails.

Key issues raised in the consultation included:

- Support for the proposal
- Engagement with Moore College and the All Saints Anglican Church about the proposal and the location of the site compound on their land
- A request from the City of Parramatta Council to extend pavement rehabilitation works on Wilde Avenue southbound up to Barry Wilde Bridge
- Impact on the All Saints Anglican Church and Moore College, including acquisition of a strip of land from the Church
- The overall construction timeline and the specific times works will take place
- Construction and operational impacts on the student residents of Moore College, as well as the operations of the Church
- Requirements placed on workers accessing the site compound.

Intersection improvements.

Consultation outcome

After considering all feedback we have decided to proceed with the proposed bus priority intersection improvements, including some changes.

These changes include extended pavement rehabilitation works on Wilde Avenue and removal of two additional small trees.

The steps to the All Saints Anglican Church on the Wilde Avenue side will not be reinstated, at the request of the Church.

We have prepared an engagement report, which provides a summary of the proposal, the feedback we received about it and our responses to this feedback.

The report is available on the project webpage at rms.work/wildevictoria

Next steps

We plan on carrying out the works over nine months, weather permitting, starting by the end of June 2020. Our site compound to support the works will be located on Moore College and the All Saints Anglican Church land, as marked on the bus priority intersection improvements map.

We will be back in contact to provide further details before starting. If you would like to keep up to date you can also join our email list.
